

Diploma Course for International Arbitrators

Course purpose and vision

The SCC Arbitration Institute (SCC) and the Swedish Arbitration Association (SAA) are pleased to offer a comprehensive diploma course designed for experienced international arbitrators seeking to enhance their expertise in Swedish arbitration practice and the SCC Rules. This intensive programme comprises eight interactive modules delivered by leading Swedish arbitration specialists, focusing on key procedural aspects and recent developments in Swedish arbitration law. The course will also offer comprehensive insights into the SCC Rules, along with practical tips and considerations for arbitrators handling SCC cases.

Participants will develop practical skills in conducting arbitral proceedings in compliance with Swedish law and best practices, covering essential topics including the regulatory framework, arbitration agreement validity, arbitrator mandate, and procedural management. The course combines theoretical knowledge with hands-on exercises in hearing conduct, award drafting, and post-award procedures. Upon successful completion, participants will receive a SCC/SAA course diploma.
